

DARSHAN THORAT

Computer Engineering Student

9730795604 | thoratdarshan230@gmail.com

LinkedIn [linkedin.com/in/darshan-thorat](https://www.linkedin.com/in/darshan-thorat) | GitHub github.com/darshanthorat6450

OBJECTIVE

To utilize my expertise in software Development, Software Testing, cloud technologies and data-driven solutions in a high-growth environment where I can effectively contribute, inform and learn and develop solutions for real problems.

TECHNICAL SKILLS

Programming Language	Java, C++
Frontend	HTML, CSS, JavaScript
Backend	Node.js, REST APIs
Database	MySQL
Tools & Tech	AWS, Git, GitHub, Power BI, Excel, Jira, Selenium
Software Engineering Abilities	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), System Design Basics, Problem-Solving.

EDUCATION

B.E. Computer Engineering	<i>Expected 2027</i>
Amrutvahini College of Engineering, Sangamner (SPPU)	CGPA: 8.99 / 10.0
Higher Secondary Certificate (HSC)	<i>2023</i>
PVP Junior College, Loni	Percentage: 76.17%
Senior Secondary Certificate (SSC)	<i>2021</i>
Pravara High School, Kolhar	Percentage: 84.00%

EXPERIENCE

AI & Cloud Computing Intern – Zensar Technologies	<i>December 2025 – January 2026</i>
Trained in Core Java, OOP, JDBC, Python, SQL, Cloud Computing, AWS, Machine Learning, Generative AI and NLU through practical projects as well as real-world technical assignments.	
Data Science Intern – IStudio	<i>February 2026 – May 2026</i>
Conducted exploratory data analysis, data preprocessing, visualization and statistical analysis using Python and built and evaluated ML models for classification and prediction using end-to-end data science pipeline.	

PROJECTS

NimbusDrive – AI Powered Cloud Storage Platform	<i>December 2025 – January 2026</i>
AWS • Node.js • React.js	
GitHub: github.com/darshanthorat6450/nimbusdrive	
- Created a Google Drive inspired cloud storage platform with an AI powered voice assistant, intelligent organization of the files and sharing of files over Email, WhatsApp, SMS. - Hosted on AWS (EC2, S3, DynamoDB, IAM, Shield) and Render (backend) and Netlify (frontend) for secure, high-performance and high availability solution.	
KisanGaadi – Agricultural Logistics Platform	<i>Oct 2025 – May 2026</i>
Node.js • Express • MongoDB • Socket.io	
GitHub: github.com/darshanthorat6450/kissangaddi	
- Designed and developed a full-stack application for agricultural logistics with real time booking, GPS tracking and online payments. - Integrated Razorpay, Socket.io, Fast2SMS and Nominatim API for payments, tracking, and notifications.	
Created a scalable MongoDB based backend with cross-platform support.	

CERTIFICATIONS

- Data Analytics with Cloud Computing and AI Features – Godrej Infotech
- AWS Cloud Certificate
- Master Spring Boot 3 And Spring Framework 6 With Java

PROFESSIONAL SKILLS

- Cloud and Deployment • Debugging and Troubleshooting • Technical Documentation • Agile Methodology • Cross Functional Coordination

ACHIEVEMENTS

Student Coordinator, ACES (Association of Computer Engineering Students)

- Organized technical events, coding contests, workshops and seminars for Computer Engineering students.
- Worked together with faculty and student teams to plan and successfully carry out activities of the department.
